**From the South:**

Starting at the corner of Rt. 176 and Walkup Rd., go North 1 mile on Walkup Rd., to the stoplight at Hillside Rd. Do not turn there, but go straight through the intersection. Just 40 feet further, turn left into our driveway. Do not expect an industrial building. Our studio looks like a residence. The only sign is a small wooden sign by the road. It fits in with the residential area.

**Warning: Turning left into our driveway can be dangerous!!!**  
This is a left turn, immediately following a green light. Other drivers may not expect you to stop here for a turn. Watch the cars behind you. If you are being followed by another car, just pass us by, turn around up the road, and come back for a safer right turn into our drive.
